The Howell Police Vest fund was founded in 1998, by local businessmen and professionals, to supplement the cost of replacement bulletproof vests for our officers. Over the past 10 years we have covered the costs of over 100 vests. The committee recognized the need to expand our scope to facilitate the purchase of other needs not covered by the police budget. A few examples of equipment purchased by the now Vest and Safety Fund include the purchase of defibrillators, various SWAT Team equipment and the outfitting of a K-9 vehicle.

Your support of the Vest and Safety Fund is vital in order that we may continue to provide our police officers with equipment necessary to ensure the safety of our homes and businesses.
